Forecast for Monday 22 Aug 2022

Weather: Showery rain arriving from the west during Monday morning, becoming persistent with some heavier bursts possible for a time. Drier periods developing during the afternoon and into the evening with brighter spells likely, but also a chance of the odd shower, possibly briefly heavy.

Chance of cloud-free hill tops above 600m: 30% becoming 70% from mid-afternoon.

Low cloud and visibility: Periods of cloud above 400-500m becoming widespread by late morning. Widely poor visibility during morning in rain and drizzle with very poor visibility in cloud. Becoming mostly good at low levels during the afternoon, with the cloud becoming patchy above 500-700m by late afternoon.

02:00 on Mon 22 Aug 2022	0.2mm	0.4mm	0.8mm

Forecast for Tuesday 23 Aug 2022

Weather: Low cloud developing during the early hours, with some light rain or drizzle during the morning. Remaining mostly cloudy with outbreaks of light rain for the afternoon, but with the risk of an isolated heavy shower as well.

Maximum wind: Southwesterly 15 mph gusting 20-25 mph at times.

Chance of cloud-free hill tops 600m: 30% becoming 60% by the afternoon.

Low cloud and visibility: Widespread cloud above 400-500m during the morning, this most persistent in the west, with the chance of slightly higher cloud bases in eastern areas. Periods of cloud above 500-700m during the afternoon and evening. Visibility widely very poor in cloud and occasionally moderate in any rain or showers. Good away from cloud or showers.

Temperature: **Valleys:** Plus 14 Celsius rising to plus 21 Celsius.
At 600m: Plus 15 Celsius.
Freezing level: Well above the summits.
